## Educación

### Instituto Profesional AIEP

Computational Programmer Analyst

Present

### GitHub Foundations Certification

Git & Version Control Fundamentals

Enero 2025

- Mastered essential Git commands and workflows
- Understood GitHub repository management
- Implemented CI/CD pipelines with GitHub Actions

## Habilidades Técnicas

- |              |               |             |                 |
|--------------|---------------|-------------|-----------------|
| • Java       | • Spring Boot | • APIs REST | • Microservices |
| • React      | • Angular     | • Thymeleaf | • Bootstrap     |
| • PostgreSQL | • MySQL       | • Redis     | • Docker        |
| • Git        | • Scrum       |             |                 |

## Experiencia Profesional

### Edutecno

Senior Instructor of Full Stack Java Bootcamp (Daytime)

Julio 2024 - Noviembre 2024

- Designed and implemented a comprehensive Full Stack development program with Java, JSP, and Spring Boot.
- Instructed students in frontend web technologies such as Thymeleaf and Bootstrap.
- Implemented practical projects with REST APIs and relational databases.
- Promoted agile methodologies (Scrum) and best practices in collaborative development.

### Edutecno

Instructor of Full Stack Java Bootcamp (Evening)

Octubre 2024 - Present

- I train in Full Stack application development using Java and Spring Boot.
- I facilitate the construction of databases with PostgreSQL and MySQL.
- I lead practical projects with an emphasis on REST APIs and microservices.

### Instituto Praxis

Instructor of Java Applications Bootcamp (Evening)

Abril 2024 - Agosto 2024

- I imparted technical training in Full Stack development with a focus on Spring Boot.
- I guided students in the implementation of web applications and version control with Git.
- I designed practical cases to strengthen agile development skills.

# Certificaciones

---

GitHub Foundations Certification	Julio 2024
Oracle Certified Java Programmer (OCPJP)	Enero 2025
